Here’s what New Jersey librarians are saying about Rutgers University Libraries Interlibrary Loan . . .

“A faculty member working on an advanced degree relies on ILL from Rutgers and others for specialized research materials, especially Spanish language and literature journals. She says ‘thanks!’”

“We received a book from the Camden Library on Georgia O’Keefe that our patron used for a talk at the local museum.”

“Obtained a book from the Rutgers collection, which was then used in a successful presentation to a potential client

“I have a patron who asks for extremely esoteric items and Rutgers is usually my number “1” source for these items.”

“One of our professors was able to quickly obtain a number of books that he needed on the topic of survey courses. He received them very quickly and was able to get his research approved on schedule.”

“The patron was preparing a scholarly paper for presentation to a special interest group, and we were able to provide the necessary information through your services.”

“We have H.S. students in honors courses that request materials through JerseyCat from your location.

“As one of the largest academic library systems in the state, and as certainly the one that is most accessible to the public, Rutgers University libraries’ willingness to assist other libraries in the state is greatly appreciated and highly commended.”
