Library Catalog Committee  
June 15, 2017  
Meeting Minutes  

Present: Stephanie Bartz (chair & recorder), Natalie Borisovets, Rhonda Marker (guest), Li Sun, Bob Warwick, Yini Zhu (remote)  

1. The ongoing work of LCC  
There was a discussion regarding the relationship between and the distinct roles of the Library Catalog Committee, the LIS Committee, and the Discovery Working Group. At present, LCC is generally responsible for all of the public facing versions of the Library Catalog. For the immediate future, LCC will focus on improvements to the Library Catalog that can be made without the development of new code. With this in mind, the group will review and reprioritize its existing VuFind modification list.

Decisions/Actions: Stephanie will update the existing VuFind modification list for review and reprioritization at the July meeting.

2. LCC’s charge  
The committee’s charge has not been updated since 2013. Parts of it, such as references to the User Services Council, are obsolete and other parts need updating to reflect changes that are taking place at the libraries. A new charge will more clearly define the work of the committee in relation to other groups, and will better define expected outcomes.

Decisions/Actions: Rhonda, in consultation with the committee, will work on developing a new charge for the group.

3. Next meeting  
July 20, 1:30 p.m., University Librarian’s Conference Room
