The Data Team is now ready to support a wide range of Rutgers research data requirements.

- Data Management Plan Consulting with Faculty
- Metadata Development Advice and Assistance
- Portal Design for Grant-funded Projects
- Data Curation Assistance
- Helping Faculty Share their Data for Reuse
- Archiving and Sharing Data in the RUresearch Portal

Cross-functional training ensures that all members of the RUresearch Data Team understand the purpose and importance of each others’ roles.

The mission of RUresearch is to preserve Rutgers research and increase its impact.
