Myths and Realities of Alzheimer’s Disease

2:00-3:30pm, Saturday, April 13, 2019

Join us in learning more about Alzheimer's disease (AD) with Mary Catherine Lundquist, Director of the COPSA Institute for Alzheimer's Disease and Related Disorders. Ms. Lundquist will, in plain language, discuss the basics of AD, how to prevent AD, and current developments in AD treatment.

A Q&A will follow the talk and light refreshments will be served.

Hosts: Piscataway Public Library
Library of Science and Medicine (Rutgers University)

Sponsor: COPSA Institute for Alzheimer’s Disease and Related Disorders

Location: Westergard Library, 20 Murray Ave, Piscataway Township, NJ 08854

Time: 2:00-3:30pm, Saturday, April 13, 2019

Ms. Lundquist has over 25 years of clinical and administrative experience in geriatrics specializing in dementia care, supporting family caregivers, training professionals and providing community health education. She is currently the Program Coordinator of the COPSA (Comprehensive Services on Aging) Institute for Alzheimer’s Disease and Related Disorders at Rutgers Health, University Behavioral Health Care. Her expertise is in designing and implementing programs which enhance the quality of life for individuals with memory loss and their caregivers. She is the author of Circle of Harmony: A New Paradigm of Care for Managing Behavioral Disturbances, Bridges: A Toolkit for Family Caregivers, and Foundations of Dementia Enabled Care.
