

Using Image & Video Collections [PDF]

In this workshop, participants will learn how to: navigate to each image and video resource from the George F. Smith Library homepage, the web, or iTunes App Store using a desktop or mobile computing device; create and use the features of a personal account within each resource; browse and search for images and videos within each resource; capture images and videos and associated materials from each resource to use in one's own work.

Please see our Image & Video Collections webpage to review some of the databases taught in this workshop: http://www.libraries.rutgers.edu/health_sciences/image_and_video

Please see the George F. Smith Library Mobile Website to review mobile resources taught in this workshop: <http://m.libraries.rutgers.edu/smith>
